PROFILE

DevOps Engineer with a strong background in Terraform, AWS, and Bitbucket. With a focus on efficiency and automation, my goal is to work with a great team to solve interesting problems and drive continuous improvement.

EMPLOYMENT HISTORY

DevOps Engineer, Carson Group
Omaha

Jan 2022 — Present

- Developed a Continuous Integration/Continuous Deployment (CI/CD) pipeline that improved system reliability and uptime
- Created dashboards to visually represent system performance metrics
- Implemented a logging and monitoring solution that enabled early detection and resolution of system issues
- Developed scripts to automate manual tasks, resulting in improved system efficiency and cost savings

Solutions Architect, Simple Development
Carrollton

Jan 2018 — Dec 2021

- Creating and deploying applications on GCP
- Generated, secured, and managed documents and secrets on cloud storage.
- Collaborated closely with teams to realize applications and services.
- Developed an API gateway that provides secure access to enterprise data

EDUCATION

B.S. in Computer Science, University Of Texas at Dallas
Richardson

Aug 2014 — May 2020
